## LDT69-C012

FABULOUS DESK-MOUNTED HEAVY-DUTY GAS SPRING MONITOR ARM

### DESCRIPTION

To keep up with the new trend of larger screens, we've designed the LDT69-C012 monitor arm to securely hold monitors up to 49 inches, such as the Samsung Odyssey G9. The optimized tilting mechanism provides a smoother adjusting experience for these large screens. Additionally, the quick-release VESA plate and topside installation base make it incredibly convenient to use. With four stylish color options, this monitor arm can seamlessly blend into any interior style. Take your large screen experience to the next level with this strong and sleek monitor arm.

### FEATURES

- Support weight up to 44 lbs: easily reposition large curved/flat monitors
- Detachable VESA Plate Design: enables easy installation
- 180° Rotation Stop: prevents monitor arm from swinging into screens or walls
- Optimized Tilting Structure: provides excellent weight-bearing capacity and smoother adjustment for large screens
- Installs from Top Side: installs entirely from above the desk surface
- Built-in Cable Management: for an organized and neat workspace
