

Doing it Right!

TF-HAW400-90

Height-Adjustable Wall Mount for Interactive Displays

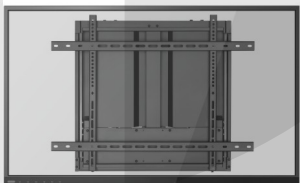

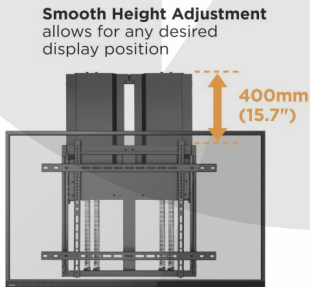

DESCRIPTION

With a light hand touch, the TF-HAW400-90 allows the display to be raised or lowered at any position and a compact design allows it to fit nicely behind the screen when not in use. A high-grade black powder-coated finish provides an attractive anti-scratch surface that complements any decor. With the weight balance design and multiple VESA size options, the TF-HAW400-90 will fit most any whiteboard or display in the market today. Keyhole pattern makes installation easy and quick.

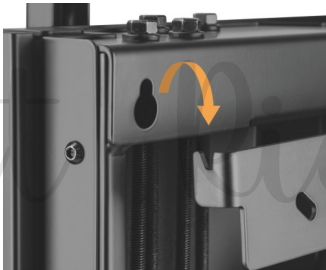

FEATURES

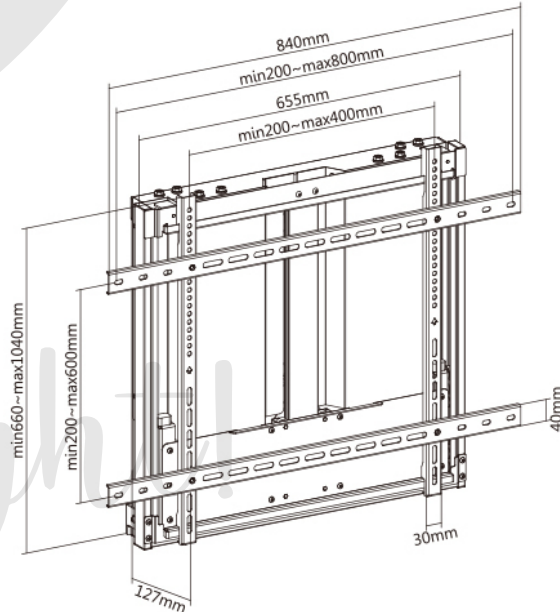

- Smooth and Effortless Height Adjustment: high-low adjustment with finger touch positioning
- Weight Balance Design: easily accommodates the different weights of displays
- Keyhole Pattern: allows for easy installation
- Compact Design: allows the mount to hide behind the screen when not in use
- High Quality Powder-Coated Finish: features a stylish anti-scratch surface
