

Doing it Right!

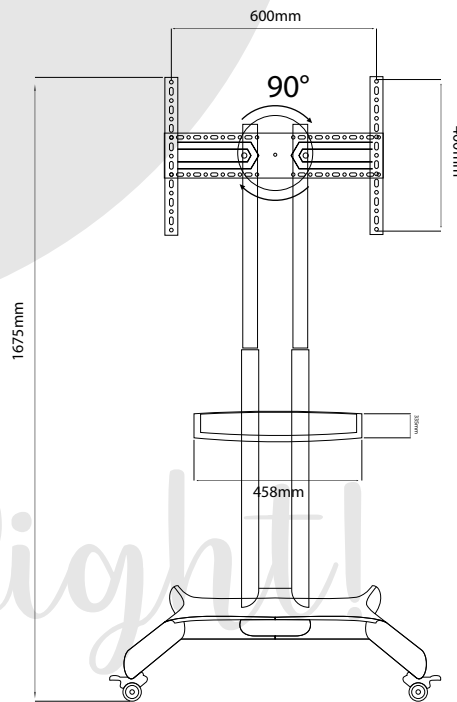

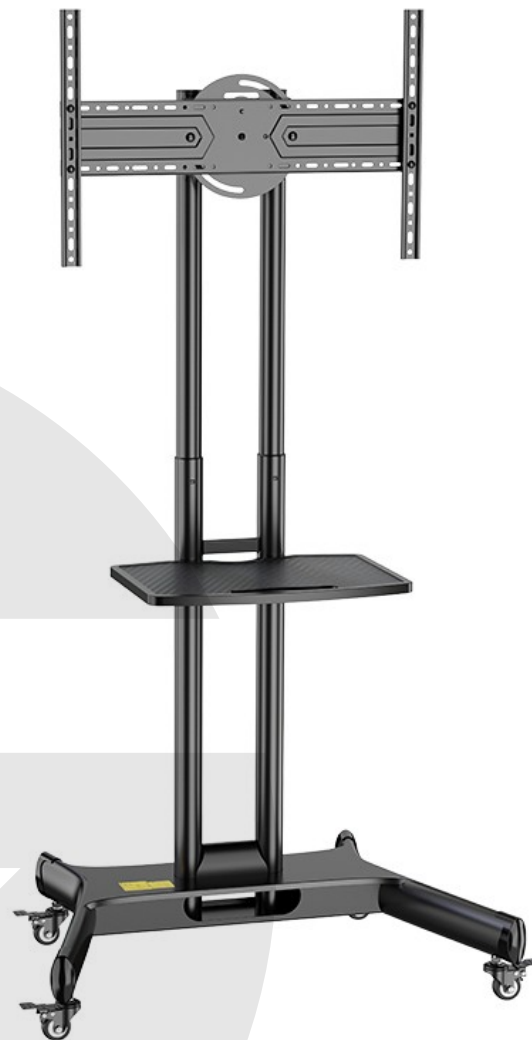

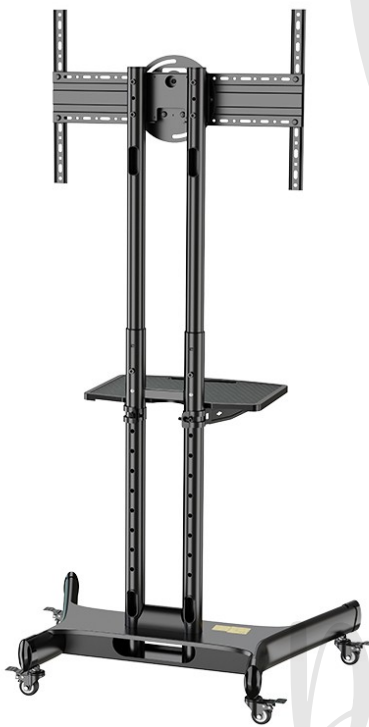

KLC-L65-X

Rotating TV Stand

DESCRIPTION

The KLC-L65-X is designed to support the meeting in the new technology age, where the interactive displays are used to convey the ideas. The rotational interface allows users to rotate the display 90° from portrait to landscape easily. The equipment shelf behind provides storage space for materials or equipment. From room to room, the KLC-L65-X is safe and easy to move with rounded edged legs and four PU hooded lockable wheels.
